Teaching Philosophy

As an educator, I want to encourage students to try their best when things get hard. I want to let the students know that not everything is going to come easy to them, and therefore, determination and perseverance are what will allow them to succeed. I want to let students know that mistakes are welcome as they are a stepping-stone to learning the correct subject matter. I want to focus on the needs and interests of each student and adapt to the necessary ways that will maximize the student's success.
